Ticona at  
Fakuma 2009

Under the banner "Productivity & Performance", Ticona had its own stand for the first time at this year's FAKUMA. In four main areas – Composites, Metal Replacement, Green Electronics and Appearance – the plastics producer from Kelsterbach showed manufacturers and suppliers in different industries how to take full advantage of plastics technologies and high-performance materials. Exhibits highlighted concrete competitive edges like weight and CO<sub>2</sub> reduction through lightweight construction, and cost and energy-efficiency, as well as innovations in products, manufacturing processes and design. The Ticona stand presented new materials and applications, including major exhibits from the aeronautics and automotive industries.

## January

January 27, 2010  
ZVEI Working Group  
"Halogen-Free Products"  
Frankfurt am Main, Germany  
"Halogen-free flame-retardant plastics"  
Dr. Alexandra Jacobs-Hattwig  
Ticona GmbH,  
Kelsterbach, Germany

## February

February 24-25, 2010  
SKZ Würzburg  
Engineering polymers  
Performance potentials  
and trends  
Professional conference including, among other topics:  
"POM, a surprisingly versatile engineering polymer"  
Dr. Kai-Uwe Tönnies, Ticona GmbH,  
Kelsterbach, Germany  
"LCP, the sophisticated material class"  
Dr. Achim Hofmann, Ticona GmbH,  
Kelsterbach, Germany

## SKZ Würzburg

SKZ uses its facilities to host, among other things, professional conferences and seminars covering all facets of plastics and interdisciplinary topics.
