## **TICONA ENVIRONMENTAL, HEALTH AND SAFETY (EHS) GUIDING PRINCIPLES**

### **◆ Compliance with all laws and regulatory requirements**

We will comply with all environmental, health, and safety laws, regulations, standards and ordinances in each of the countries in which we do business.

### **◆ Safe and efficient processes and products**

We will use sound science and responsible business practices in order to manage the environmental, health, and safety issues of our businesses.

We will produce and sell products that can be manufactured, transported, used, and disposed of safely.

### **◆ Continuous improvement of EHS performance**

We will strive to improve our EHS performance continuously to protect people and the environment and to promote efficient use of energy and materials.

### **◆ Integrate EHS in business processes**

Environmental, health, and safety will be managed as part of our overall integrated management systems.

### **◆ Prevent incidents and pollution**

We believe that environmental and safety incidents are preventable and will strive to eliminate environmental releases, process safety incidents and employee injuries.

### **◆ Responsibility of all employees for safety and environment**

Each and every Ticona employee is responsible and accountable for his or her environmental and safety performance. We will provide training to ensure that employees can perform their responsibilities.

### **◆ Act responsibly and communicate openly**

We will act responsibly and communicate openly with our customers, neighbors, employees, government officials and other stakeholders relative to the safety of our products and operations.

### **◆ Obligation of contractors and partners**

We expect that our contractors and partners will comply with our EHS Principles, Policies, and Standards and will work with them to achieve acceptable performance.

**Ticona Executive Committee, April 13, 2005**
